We can make that happen....getting ready for Dorian, and wife off to CA tomorrow morning....so will get back with ya' post-hurricane.

Yes, retiring tomorrow....but still very active....and plan to stay involved!

Be safe,  
LeRoy

Leroy,

Good afternoon! I'm hoping I'm catching you before you retire and also, congratulations on your retirement. We are gearing up to public notice the draft permit, draft environmental assessment, and associated documents for the Kampachi Farms – Velella Epsilon project and if everything goes according to plan the documents will be up by on Friday, August 30th.

We are noticing the document in the Sarasota Herald Tribune but also recognize that the interest in this permit is probably wider than that readership base and are trying to get the word out to all interested parties. Jess thought you might have a good list of people to contact once the documents are public. Is that correct? I know you are retiring so if this is a task better suited for someone else, could you provide me with their contact information? If you do have a good list and it works for you, I'll send you an email on the day it's public noticed with information including the link and how and when to provide comments and could you forward it along? There are a few people and groups that contacted me directly so there might be some overlap but I think that would be ok.

If you have any questions or want to chat, I can be reach via phone at 404-562-9672 or by email at [wahlstrom-ramler.meghan@epa.gov](mailto:wahlstrom-ramler.meghan@epa.gov). Thank you,
